For growth potential look to locations with international interest and good transport and supporting infrastructure. For example Silver Coast of Portugal

HIGH APPRECIATION POTENTIAL

- Silver Coast is a recommended investment area. Property prices are increasing and will continue as this area is targeted for National strategic tourism development.
- New planning regulations restrict developments close to the sea...those in such locations will command premium prices.
- Buyers are getting luxury properties directly from the developer – demand for such properties is high
- The planned Jurassic Theme Park will see visitors increase. Touristic accommodation is currently limited so quality property will be in high demand.
- The 18km of beaches have been fast tracked for improvements thereby attracting international tourism.
- This region is world renowned for Golf, Surf and Sailing.

HEIGHTS II

A contemporary style luxury development consisting of just 19 houses with pools, gardens, large terraces and supported by reception, security and an on-site team to assist you for your every need. This is a continuation of one of the fastest selling developments in Portugal and we are giving select clients the opportunity to purchase early.

DESIGN

is made by Architect Pedro Alexandre and Interior Designer Francisco Valle de Souza. Simplicity in design with open plan living areas that flow naturally to large terraces overlooking the sea – “the location of my homes must be a magical place where the panoramic views reflect the immensity of the ocean while achieving equilibrium with day to day living... light, space and harmony are our goals”.
